

GOVERNMENT AND PUBLIC SAFETY

Trusted AI knowledge systems for public safety and mission driven agencies.

RegainFlow turns fragmented policies, documents, and operational knowledge into secure systems grounded in the source record. Senior engineers work from discovery through production, then leave the agency equipped to run what was built.

CORE CAPABILITIES

THE SYSTEM AROUND
THE MODEL

01 Information Retrieval and Knowledge Intelligence

- Policies, SOPs, general orders, training and bulletins
- Accurate, cited answers drawn from large and complex document sets
- Answers respect existing permissions, with a full audit trail
- Built in safeguards against wrong or unsupported answers

02 Secure platform engineering

- Full stack apps, APIs, portals and internal tools
- Access control aligned to agency roles and structure
- Reliable cloud operations with continuous updates and monitoring
- Built to operate in restricted and air gapped environments

03 Forward Deployed Engineers & Fractional CDAO

- Discovery and mission workflow mapping
- Prototypes built for production, not for the demo
- Embedded data and AI leadership, on a fractional basis
- Your team enabled to own and run what was built

WHY REGAINFLOW

SENIOR ENGINEERS.
ONE ACCOUNTABLE
PATH.

DIFFERENTIATORS

- **Credentialed operators** — active TS/SCI clearance holders, with Security+, PenTest+, CEH and Cisco CCNA certifications.
- **Fortune 100 delivery experience**, with enterprise AI shipped inside Pratt & Whitney and government services environments.
- **Compliance ready practice** across SOC 2 Type II environments, Vanta and STIG hardening.
- **Transferable ownership** through documentation, runbooks and working sessions with agency staff.

PAST PERFORMANCE

MSTS

SUBCONTRACT DELIVERY THROUGH LINK TECHNOLOGIES

RAG and AI enabled knowledge systems supporting a government services environment.

Pratt & Whitney

SUBCONTRACT DELIVERY THROUGH INNOVIEN SOLUTIONS

Enterprise AI and retrieval augmented generation delivery supporting an aerospace manufacturing environment.
